About us AISynergy is the learning technology and AI training brand of iSpring Solutions. We help Malaysian organisations build workforce capability through digital learning platforms and practical training, combining platform, content and local implementation and support.

Capabilities

- **LMS platform** – Moodle-based learning management platform, branded and supported by AISynergy: single sign-on options, learning plans and pathways, course completion tracking, admin dashboards and exportable activity/completion reports
- **Content integration** – SCORM and LTI support, plus web-service APIs, for loading and linking third-party course libraries
- **Training delivery** – HRD Corp registered provider for classroom and online programmes
- **Implementation & support** – onboarding, admin training, local helpdesk, utilisation reports
